EDUCATION

Bachelor of Science: Computer Science Minor in Mathematics
University of Wisconsin – Eau Claire
9/1/2023-12/20/2025
Dean's List: Spring 2024, Spring 2025
GPA: 3.80

Associates of Arts: Liberal Arts and General Studies Rochester Community and Technical College
8/30/2020-5/20/2022
Dean's List: Fall 2021, Spring 2021, Spring 2022
GPA: 3.91

WORK EXPERIENCE

University of Wisconsin – Eau Claire – Software Developer
Feb 2025 – May 2025
Worked in collaboration with the Mayo Clinic to develop a web application using Google Cloud Services, JavaScript, HTML, SQL, and PHP.

University of Wisconsin – Eau Claire – Resident Assistant
August 2024 – May 2025
Ensured the academic and personal wellness of thirty freshman students while also providing personal guidance and fostering a safe environment.

Perceptyx – Test Automation Engineer
May 2024 – September 2024
Worked with a team of Test Automation Engineers and Software developers to identify API vulnerabilities and document them in Jira. I also wrote JavaScript test suites to find regressions in future iterations.

Aptive Environmental – Route Manager/Sale Representative
April 2023 – August 2023
Expanded the customer base through networking and relationship building, and increased sales revenue by targeting high-potential accounts. Developed in-depth product knowledge to improve sales presentations, negotiated contracts for long-term

SKILLS

- Broad experience with web design and backend integration.
- Experience in Java, JavaScript, HTML, CSS, C, SQL, PHP, and BASH
- Extensive knowledge of computer architecture and memory systems.
- Experience with GitHub, GitLab, Wireshark, Burp Suite, and Ghidra as well as experience in a variety of other development softwares.
- Experience with networking and router configuration as well as some experience with firewall configuration.

PROJECTS

NAS storage system accessible via a Wireguard VPN hosted on Oracle
Refurbished an old computer and used Kali Linux as its OS.
Created an IMS system with a fully functional frontend and backend
